

Vejarano Delaminator System™ - Platinum Set

V Glide System™

"Es una de mis herramientas favoritas, ya que ha reducido el tiempo de la cirugía de queratocono a sólo unos pocos minutos, y lo más importante es que me olvide de estar preocupado por perforaciones corneales. Manuel Vejarano, M.D., Vejarano Laser Vision Center, Mexico.

Vejarano V Glide System™ is the only economic system of delamination to treat Corneal Keratoconus, Myopia and Astigmatism. Designed to facilitate surgery, improve results and prevent corneal perforations. It is the first system that allows the surgeon to perform surgery with less experienced professional ..

The double suction system allows two settings: the first (450 mb) for small segments and second (650 mb) to implement larger segments or use it with very elastic corneas. It is easy to use and with only 4 hours of charging may be performed 10 procedures.

The complete kit has: Vejarano Delaminator of 5.0 mm. If required the Vejarano larger Delaminators, they are acquired separately to Imperial Medical Technologies.

NUEVO! - Vejarano Delaminator Upgrade Set for KERATACx™

"NEW" Vejarano Delaminator upgrade set

Turn your basic set of INTACSTM in Delaminator Vejarano System and improve its performance, it includes:

- Delaminator of Vejarano: left and right.
- Corneal Marker Vejarano.
- Spatula "Y" of Vejarano.

Never again worry about drilling a cornea! The system "V"

Automated Vacuum Vejarano allows smooth dissection ensuring a tunnel parallel to the surface of the cornea. By using Keratacx Plus 5.0mm increase in diopter correction improve their results by increasing their income.

"I have used them all; Imperial Medical Keratacx is offering the widest and most complete range of segments in increments of 25 mm"

Gianluca Rubiolini, GRVision, Como, Italy."

"We've been working on intra corneal segments for years and now control 80% due to our high quality"

Erkin Yasa, President, Gem Muhendislik.

"I used segments for 4 years and I have several types of them. Keratacx segments provide the best appearance of the eye. "

Ahmet Godeoglu, Taksim Eye Center, Turkey.

INTACSTM is a registered trademark of Addition Technology, Inc.
